TELEPHONE!

This is the way it comes to the EMPORIUM now!

"Halloo!" "Yes, who calls?" "Mrs. B., who answers?" "Mr. Smith' "All right, Mr. Smith, will you please send up twelve rolls more of the same **Paper** I ordered yesterday. We like it so well we have concluded to paper another room. How miserable that I papered my kitchen before I saw your papers. Mr. B. says he will get a piece of your **10 Cent Paper** and have it framed and hung in the kitchen, I feel so bad about it. Please send some Samples of **Borders,** a Bottle of Mrs. Winslow's **Soothing Syrup,** a Package of **Envelopes** and a **Daily Paper.** Mr. B. is down town, and as he says he has to go to you to be suited with **Cigars** and **Soda Water,** you may see him. Please tell him I have company and I want him to get a Loaf of Bread and come home early enough to split a little wood before dinner. Oh, yes, and ask him to call at Dr. A's, and bring him up to see Johny, and tell the Doctor that times ain't now as they used to was in Old Pod Auger days, and he must get the Telephone or we will have to change doctors. If he does not come into the store will it be much trouble for you to see him on the street, you don't have to go to the saloon for *him.*" "No trouble at all, glad to do it." "Thank you, good bye." "Good bye."

And this "Halloo, **Smith**, put up and deliver to Mrs. W., on Summit street, **Bromide Potash,** four drams; **Hydrate Chloral,** two drams; **Syrup Simple,** two ounces; use as directed.—Dr. Sawbones."

Such orders as these I shall be glad to fill promptly, and parties having Telephones may feel at perfect liberty to ring me up. I will receive **Orders for Medicines Sundays** and deliver them between the hours of 12-50 and 2 o'clock P. M.

A cry to the American people for help was never made in vain.

Mrs. C. Sterling has just sent in a basket of big luscious peaches. Thanks.

Coal advertisement of O. E. Thompson in another column.

We don't allow the Free Press to beat us in ticket, programme or poster printing.

Miss Henderson has secured the services of a professional florist from Detroit.

Thirty Thousand Bushels of seed wheat wanted within ten days by our northern sufferers.

Dr. Wm. Pattison, the granger, proposes to show some specimen ears of corn at our fair that will beat the natives.

STATE FAIR.—Next week at Jackson, beginning Monday, Sept. 19th. The Central gives its usual half rates.

The coronors jury decided that the woman found in Superior, is a woman unknown and murdered by a party, or parties as yet unknown.

Mr. E Hallett had excellent success selling the McPherson thrasher though late in the season, disposing of one a weak. He says "It is the best he has ever seen."

Added to the wonderful terrestrial phenomena of 1881 was the great band of white light that encircled the northern sky Monday night, flashing up at various points as if a great city was on fire.

Fifteen boxes of clothing with an average of $50 each and $150 in cash has been sent to the sufferers in Minden and Sanilac Counties. Any more clothing may be left at Mrs. Hardy's opposite the Presbyterian church.

The pastors' conference of the Washtechurch, was very interesting. Good sermons, music and bounteous repast. The ladies of York are famous for the latter.

Every human philanthropic soul has responded to the call for the perishing in the north. A large amount of clothing has been forwarded. The farmers have contributed liberally in cash and grain. Seed wheet is being collected and sent on in haste.

Yesterday morning's Post and Tribune pays a high compliment to Burleigh in Othello, at Jackson, winding up by saying: "It must be conceded that John L. Burleigh has demonstrated his right to a place on the legitimate stage."

We were ashamed to see so few of our professional men present to hear Miss Willard. Where are our boasted lawyers, and especially the *one* who has such a supreme regard for the reputation of our city as to pitch indiscriminately into the city papers.

Amid the calamaties, drouth in other sections and the firey scourge of the north, Ypsilanti and vincinity, though it has suffered somewhat, has been greatly blessed. There is no reason why the fair. now close at hand, the 28th, 29th and 30th, should not be a marked success. Note our premium elsewhere.

The Ladies' Library Association picnic on the grounds and the residence of T. C. Owen was gotten up by every possible preparation to make it a success. Mr. and Mrs. Owen spared no pains. The grounds were splendidly illuminated by Chinese lanterns and a reflector. The swings, teters, hammocks, jubilee singer tents, etc., were all on the docket. We had to leave before eight o'clock and so lost the music and the full zest of the occasion. The ice cream and cake was good, better, best.

HOTCHKIN FAMILY.—This famous family of song will give two grand concerts at the Opera house next week, Friday and Saturday evenings and mattinee Saturday afternoon. The proceeds are for a good cause, to aid the mission circle of the young people in the Presbyterian church in their noble work. The testimony of the Eastern press to the wonderful powers of song possessed by this family and of the large and interested audiences is varied and extensive. We bespeak for them a generous patronage. Tickets of admission 25 cents. See programme in another column.

"At a meeting of the Ypsilanti school board last week, E. P. Allen took occasion to haul the Ypsilanti newspapers over the coals for running down the city. That's right, captain, perhaps in the future they will have a good word to say of their town." —*Ann Arbor Democrat.*

Now Cap, arn't you ashamed? To be consistent you need to refrain as an individual from running down the town. We will give you the range of our files and $5 if you can find an editorial "running down the town." You will find plenty of the reverse. We have too big a personal interest at stake.

MARVELOUS ESCAPE FROM SUDDEN DEATH.—Last Saturday, as Mrs. Forbes Ballard was coming into town with a double team, the tongue dropped at the hill this side of Mr. Watling's, and the team becoming frightened ran away. Mrs. B. controlled them with skill, but when opposite Mr. Ackley's, they ran against a tree with such force as to throw Mrs. B. out, breaking the collar bone and bruising her thigh. She probably struck against the tree. The horses, released from the wagon, kept on a piece further and were caught. Dr. Batwell was summoned. Mr. Ballard was informed and removed his wife home. She will doubtless be confined to the bed a long time.

The Detroit M. E. Conference is in session at Port Huron.

BASE BALL.—Ypsilanti confesses herself beaten by the Detroiters fourteen to eight.

Unclaimed letters Sept. 14th: James R. Clark, Patric Collins, Edd Richardson, Peter Sternberg, Nelson H. Wick.

There are 1,468 children in this city between the ages of 5 and 20 years. Last year 1,452.

J. E. Scripps the soul of the Evening News is home again. The letters from abroad were interesting and instructive.

Mr. Beal has withdrawn his suit against the Ann Arbor Register Printing company and now there is peace. Let us all be joyful.

We are in receipt of tickets of invitation to attend the tri-state fair at Toledo, our state fair at Jackson, the Hillsdale fair, and the Washtenaw county fair.

There will be no preaching service at the M. E. church to-morrow neither morning nor evening. The class meetings and the Sunday school will meet as usual

Atwood's restaurant, in the Moorman block, has a reputation as a dining place never surpassed in our city. Mrs. Atwood is a nice cook and her ice cream is very popular.

Brother Bourns hit the nail on the head last Sunday. Our M. E. friends need a new lecture, prayer and conference room. The present one is ill'y shaped and inadequate to the purpose.

The Post and Tribune made a great ado about two night blooming cereus in that city. Miss Henderson, proprietor of the green house had eight in one night and our citizens did not craze over it either.

FARMERS.—Horace Greeley used to exhort the farmers of the west to put in *one acre more of corn.* Now *save that one acre more of cornstalks. Husband every stalk of corn and scraap of fodder.* Your stock and your neighbor's stock will need it before the 1st of May 1882.

The barn of Henry Bush of Farmington was burned the 8th inst, together with all of his hay, wheat, oats, straw stack and one horse and five pigs, besides some tools, all from the miserable practice of smoking. Buildings burned in that way should be a state prison offence. C. A. LAMB.

We emphasize our article of last week on fairs. There needs to be a reform and the premiums largely paid to home instead of foreign parties. We hope the managers of the Eastern Michigan Mechanical and Agricultural Fair will have the honor and glory of introducing the reform. It would raise an army of farmers and others to its support, now listless and indifferent.

THE FAIR.—The only paper in the city to date that has extended invitations to people far and near to attend our fair has been the COMMERCIAL, and we renew our invitation, wives and little ones, bridegroom and bride, swain and sweetheart. Bring your specimen wheat, corn, fine horses and lowing cattle, your fine wool sheep. Time and space would fail us to mention all the products of the field.

PRESBYTERIAN.

In their newly and beautifully frescoed house, the congregation united with their pastor, the Rev. Mr. Richmond, in blessing the Lord God who, in the words of the text, "hath put such a thing as this into the king's heart to beautify the house of the Lord which is in Jerusalem." But while admiring its beauty the pastor urged his people to think of it not merely as a work of art, but as adding glory to the Lord to whom they had humbly dedicated it. Their own presence at divine service, during the week as well as on the Sabbath, is essential, but they must also go out into the by ways and invite the people to come in. Fine houses are of little account unless connected with outside work for the master. A union cemented by God's spirit in the past, was an auspicious omen for the future. The singing, under the leadership of Capt. Allen, was supurb.

MISS WILLARD AT THE OPERA HOUSE—SUPERB.

Miss Willard's lecture Monday evening, was never excelled in this city. It was a pity that two prominent events should have occured the same evening and so divided interests. It was a lecture worth the attendance of the culture and refinement and the best brain power of our city and vicinity. It is so rare that our citizens have the opportunity to hear such a lecturer and lecture that more pains should have been taken to advertise both, and thus such a grand opportunity had not been missed by so many. Miss Willard among women is the Wendall Philips of the platform. A silvery tongue, a sweet musical voice, every intonation, every gesture, so thoroughly fitting the thought. But the secret of oratory are burning thoughts, ideas that bristle with meaning and leave their weighty impress. The powers of the President are almost unlimited and for the time being he is the potential magnate of the land, but there is a bigger king, king alcohol. There is even a bigger potentate than king alcohol, it is king majority. Moral suasion and prohibition must go hand in hand. Unanswerable logic—what is morally wrong can never be morally right—what is morally wrong can never be legally right. Her description of the three months seige of the Illinois legislature was rich and racy, resulting in the conversion to woman sufferage of some of the ablest intelligent women of that state. Once a year she goes to the state of Maine to gather fresh inspiration and courage in the grand work. The prohibition law in Maine is enforced with as much efficiency as the law against theft. It is the defence of the poor and the needy, of the growing generation. Through the local option law of Illinois women in some localities gained the ballot on this questian of prohibition. To the honor of womanhood every woman voted in favor of the measure and it was carried by sweeping majorities. The women marched from the churches to the polls. Even now while she was speaking her precious old mother at Evingston was praying that every word she uttered might be nerved with living power to influence and move her audience to grand and glorious efforts in this city so famed for its past noble deeds in this cause.

Mrs. C. D. Bassett, the president of the union, and Miss Alvah Worden occupied the platform.

AUGUSTIN DALY'S PLAY.—Needles and Pins Thursday evening was one of the very best the Opera House management has afforded our citizens. It was rich in cultivated and high toned acting and innocent comedy that kept the audience in the very best of humor. The inclement weather kept some away, and besides we regret to be informed that the first class Operatic plays, given by the first class companies of the country fail to draw, while a vulgur minstrel show draws crowded houses. The management is very desirious of maintaining the best class plays to the prohibition of the latter and will be enabled to do so if our cultured and best class of citizens sustain them. A hint should suffice.

MISS BARNES' CONCERT.

Lovers of music listened Tuesday evening to one of the best concerts of the kind that have been given in this city. Miss Marie Evelyn Barnes has a very fine contralto voice which gives promise of future fame. To the first encore she responded with the simple song, "The Cows are in the Corn" which was rendered in an animated manner. "Saved from the Storm" was rendered impressively. Our good wishes go with her to Germany and we hope to hear her again on her return. Miss Carrie Belle Barnes has a sweet voice but it has not the strength and depth which characterize her sister's. Miss Guernsey can impersonate to perfection from the languid Lady St. Clare or the murderous Margerite to the wicked little heathen, Topsey. Her selections were good. Herr Rudolph Speil is well known to Ypsilanti audiences and was listened to with pleasure. Mr. Chas Kimball was at his best. Miss Fannie Bogardus' accompaniaments were an important factor in the evening's entertainment. Almost every piece was encored and many beautiful flowers were presented, one to Miss Barnes being a lovely harp, formed of white and pink blossoms.

M. E. CHURCH.

Rev. Mr. Bourns preached his last pastoral sermon Sunday. morning. Text: "We eminently true of ministers of the gospel. Jesus went from place to place tarrying no where long, preaching and doing good, so with the apostles and their co-laborers. The apostle Paul and co-temporary preachers were travelling missionaries. This is the genius of methodism and has contributed to its great success in winning souls to Christ and in building up and nurturing churches. Observation proves that from five to seven years is the limit of usefulness in a large majority of cases. He exhorted every member to so live that the minister or church will not be embarrassed in responding to a request for a letter, and also the extending of proper courtesy to strangers. He praised the membership for their care in this latter regard. The membership is about 350. Mr. E. M. Comstock made a report showing that over $3,000 has been raised the past year for church expenses and the church is out of debt. Mr. Bourns regretted his inability to accomplish what he gladly would have done on account of his ill-health, and expressed his sorrow in being temporally compelled to withdraw from any charge. We are quite sure that the membership and congregation at large would gladly have retained him two years longer. He carries with him the universal heartfelt sympathy of the people.

DIED.

AMSDEN.—In this city, Sept. 8th, 1881, MARY AMSDEN, aged 49 years.

FOWLER.—In Blue Springs, Nebraska, Sept. 6th, 1881, MRS. CHRISTIE FOWLER, wife of Frank Fowler.

Mrs. Fowler was a sister of Mrs. Klein in this city. They went to Nebraska about three years ago and this unexpected calamity has carried deep sorrow into the home as well as into the hearts of friends here. The news was received by telegram.

GREEN.—Sept 2d MRS. SALLY GREEN, wife of Deacon Green, and youngest sister of Deacon Jas. Loomis, aged 84.

Deacon Green was killed by the burning of the steamboat Erie in 1841. It will be remembered that this steamer was the first one destroyed by fire on the lakes, and was burned with nearly all on board. Mrs. Green brought up Mr. A. Loomis who resides at Northfield. She was a woman of sterling religious character, and died as she had lived, a follower of the Lamb.

CANFIELD.—In Reading Sept 6th, 1881, MRS. MARIA D. CANFIELD, aged 66.

Her health has been precarious for a long time, but her last sickness came suddenly and was brief. On Thursday, the 1st inst., she went to her daughter's, Mrs. L. H. Fitzsimmons, for a short visit. While there she was suddenly taken sick and on the night of the following Tuesday gently and peacefully passed into the christain's rest. Her life has been one of precious fragrance for earnest piety and kindness to all. At the age of 17 she become a christian. Every good cause found in her a friend. She was a member of the First Baptist church, in Reading, and will be remembered in Ypsilanti and in Belleville, where she has formerly been a member.

She leaves four sons and one daughter; C Y. Cook, of Charlevoix; Clinton Cook, of Ypsilanti; Ernest Canfield, and L. H. Fitzsimmons, of Reading; Samuel Canfield, of Colorado.

Her funeral was held at the First Baptist church, Reading, on the 8th inst., her pastor Rev O. F. A. Spinning, assisted by Rev. Armstrong, conducted the [illegible] "Blessed are the [illegible] Lord."

THE COMMERCIAL.

Good Will to Man—Onward and Upward.

SATURDAY, September 17, 1881.

THE PRESIDENT.

Hope is springing up in loyal hearts throughout the country without distinction of party. The President is drinking in strength from the sea breezes at Long Branch. The ball appears to be encysting and healing. The parotid gland has well nigh recovered. The danger of lung difficulty, quick consumption at one time so iminent seems to be dissipated. Surely "the prayer of the righteous availeth much." Let all the people rejoice.

Walls of fire 60 feet high. Is it not a wonder that so many escaped? Whose blood would not curdle when the sky first as black as midnight, then turning as red as blood, the terrible cyclone with its awful roar, and the boldest man among them struck with terror. Hot waves sweeping through the forest and over the farms, parching the green leaves as if they had been placed in hot ovens. Smoke everywhere—thick, bitter smoke, which blinded men and suffocated children in their mother's arms. The very air in flame. A gas formed ahead of the wall of flames, and this snapped and crackled and scorched and withered and left green leaves as dry as powder. The terror stricken inhabitants could sing with emphasis:

Our days are as the grass,
Or like the morning flower:
When blasting winds sweep o'er the plain
It withers in an hour.

"Unless charges for transportation are based upon *cost of service* and *regulated by law*, the railroads are virtually owners of the country; indeed, it is more advantageous to the railroad managers than if they had a proprietary interest in all property; for with charges of transportation based upon the principle of '*what the traffic will bear*' and *the railroad managers sole judges of that question*, they can tax production and commerce at will, without the trouble or responsibility of ownership."—*Report of the N. Y. Board of trade.*

The above is a question of great magnitude and must be settled. Upon its solution depends largely whether the farmers of the west shall be free and independent, forehanded intelligent citizens, or the servile agents and dependants of the carrying interests of the country. As long as competition exists and the railroad magnates keep at loggerheads, all is safe. But when the Vanderbilts, the Goulds, the Joys unite, the Lord have mercy upon the people, for they won't, unless restrained by a higher power, the government, which the people make and unmake.

TO THE SISTERS.

A good Presbyterian lady, an efficient religious worker, said to us, "I do not like to be called a drone." We would say to her and others who do not deserve the name, "Dear women, who ever imagined that you were drones?" The editor of the COMMERCIAL never entertained such an idea. But in a membership of 600, with an overflow in the congregation, and an able and popular pastor and preacher, there must be a vent or outlet—outside missionary work, in fact home colonization, or rapid decay—a swarm of drones inside or a swarm of busy bees must emigrate to pastures green. Do you propose to stop growing in membership and limit the number of the hearers of the gospel? If there be a bigger Macedonian cry in any city of 6,000 inhabitants than over the river, where one third of the 6,000 live, and not even a Sunday school, then the churches in that city are lacking in religious zeal and enterprise. $700 for the heathen, and not a cent or the lifting of a little finger for a hundred or more Sabbath breaking, profane, Godless children at home, is certainly not cheering. The $700 donation is praisworthy. "This ye ought to have done and not to have left the other undone." Church relationships grounded in principle, imbedded by bible teaching, fundamentally resting on God's word are of incalculable w[illegible] But it is an alarming fact, if permitted to trancend every other consideration and limit and dwarf a membership so that it cannot lend a helping hand to every other moral enterprise for the weal of the entire community and even branch out itself and plant missionary stations and colonies.

Our articles on this subject so far, in main essentially gospel truth, seem to have borne fruit, as we learn that the subject came up in your prayer meeting Thursday evening, last week, of making a move to plant the standard over the river. Now sisters in every good word and work, we expect you to be foremost in this undertak[illegible]ing. There now, we had promised [illegible]lf two weeks ago to drop this [illegible] other that has [illegible]mmunity, [illegible]ss them[illegible]

PROF. GEO. P. WILLIAMS.

It is the spontaneous testimony of every pupil of Prof, Williams that he was a remarkable man. He had the peculiar faculty of making every student his fast friend. His pupils loved and revered and honored him. He gained the confidence of his pupils at first sight and this trust in and regard for him was strengthened by acquaintance. Connected with the University since 1837 and actually at ANN ARBOR from 1841 to 1875, a period of thirty-four years, he had a host of friends such as rarely falls to the happy lot of a teacher. He was the oldest professor. As President of the faculty he gave diplomas to the first class that graduated. When past active labor such was his undying attachment that he thought it a hardship if he could not visit the campus at least once a day. The last thoughts of this good man were directed to his beloved university. We were never under a teacher for whom we had a more enduring regard and attachment than Prof. Williams, our instructor in mathematics for three years. The following extract from the Ann Arbor Democrat expresses the thought of our heart and will be responded to by every one of his pupils under whose eye it shall fall:

"Of the hundreds that sat under his instruction, many perhaps have forgotten the science he taught, but there is probably not one that does not feel that he was made better by his friendly admonition or his fatherly advice. His bearing was always felt to be a rebuke to every mean art. His interest in all his pupils had the gentle qualities of a personal and almost a parental fondness; and hence it was but the natural and spontaneous expression of his heart that even to the end of his life he spoke of them as "my boys." By his boundless sympathy and his fatherly interest many a wayward youth was turned into the path of true advancement; and there are not a few who look to his word and influence as the beginnings of a new life. There are some who, if they would might say with Samuel of old,

'Thy gentleness has made us great.'"

N. S. PHELPS.

FERNDALE, California, Aug. 22.

FRIEND PATTISON:

Enclosed find P. O. order for $2.50, the amount of my subscription to March 1st, 1882. I am doing well here. Have been in Fundale since I left Ypsilanti, over three years ago. I have a pleasant school and enjoy the work. I am receiving a salary of $1,000 a year. Teachers in the common schools here receive better wages than they do with you. Teachers in the common schools of this county receive from $50 to $75 per month. Teachers are plenty, but good teachers are in demand. They are required to pass a rigid examination in California, as a consequence we have but few poor teachers in our schools. The COMMERCIAL is a very welcome weekly visitor I can assure you. I have been able through it to keep track of most of the changes that have taken place around my old home since my departure. I would like to run into the office of the COMMERCIAL now and then, as of yore, and chat with the editor, and tell him some big California stories. By the way we have plenty of strawberries yet, and if you will send around you may have enough for a short cake.

Very truly yours,
N. S. PHELPS.

The Coldwater Republican says: "The editor of the YPSILANTI COMMERCIAL attended the Hillsdale regatta and on the cars returning home he saw a scene that made his heart sick and caused him to utter these words: 'On our teturn we witnessed a sight that makes angels weep, etc.'" And then adds: "We saw on the streets of Coldwater, not many days ago, the young wife of a cigar maker pleading with the husband to go home. He had been drinking. But all her importunity was in vain. She went away with her heart full, probably to weep alone. He entered the saloon again. Whether he drank more we know not, but it is quite probable that he did."

The Coldwater Republican has buckled on its armor against iniquities in that city. It says:

"The REPUBLICAN will not refrain from speaking in unmistakable terms against the open drunkenness, the foul and irrevrent profanity, the lewdness and other evils that stand out like great boils upon the body politic in the hope that the surgeon's lance may help to relieve the foul excresences. The records of the police courts are no criterion for the condition of society. The Reporter knows that the city this year is under the controlling influence of parties who think a nigger show, a horse race and a tobacco manufactory are of more value to the community than the churches in it. The result is, the ordinances with regard to gambling and drunkenness are openly violated and not a hand raised to execute them. The REPUBLICAN is fortunate in having excited the sluggish waters. We trust the rapidity of the current will increase."

Yesterday morning, a little incident took place which might have resulted in as disastrous a manner as did the fatal mistake of Yard Master Colwell, at this place, had not everything hapened just as it did. Conductor C. Millspaugh and Steve Wiard left Jackson Junction with a stock train for Detroit and arrived at Leona at 7:56 A. M. Conductor Millspaugh went into the office and registered, as is customary and then went out and swung the Engineer ahead, entirely forgetting that the local express was to leave Grass Lake at the same moment. The Operator at Leona soon discovered that the stock had left, and at once broke in on the Chief's wire and informed him that Millspaugh had left. The Chief immediately ordered Grass Lake to pull the green board on the express, and, if possible, stop them. In this he happened to be successful and the express was backed up to await orders. In less time than it takes to write it, the stock came thundering around the curve, her men intending to run the Grass Lake station, and up to this time entirely ignorant of the terrible mistake they had made in pulling out on time they had not the least claim. And thus by the great presence of mind of the Leona Operator, what otherwise must have proved a terrible accident, was prevented. Such thought[illegible]ness is worthy of consideration. SUGGESTIONS IN TIME.

What a Woman of Prominence in the Medical World Has to Say About Her Sex.

Synopsis of a Lecture Delivered by Mrs. Doctor Kenton, Before the Woman's Society of New England.

From the Home Journal, New York.

In all ages of the world, poets scientists and men of prominence have looked with enthusiasm often akin to reverance upon women; but it is only within the last few years that she has begun to assume her right place, not only in society, but with the world in general. Why so desirable an end should have been so long delayed it is difficult to understand; but that it has at last come is certainly cause for gratitude. In her social sphere, in her mental development and especially in her physical improvement, woman has shown wonderful advancement and such as astonishes the world.

They who have made a careful investigation tell us that heathen women are much more able to endure pain than are the women of civilization, but civilized women would resent the charge that they are weaker because they are civilized. A distinguished writer says: "If the women of civilization are less able to endure the taxation of their physical resources than are heathen women, it is mere accidental circumstance and one within their control."

Let us consider for a moment the possibilities which present themselves to every woman. When the body is healthy beauty is certain to appear, even in features and forms once plain; indeed, it is the only known way to become beautiful, and all other preparations, powders, stays and laces are contemptible delusions. With health and beauty in all their attractiveness a new life dawns.

ENJOYMENT BEGINS

and all the luxurious attendants of a healthy body come forth. The maiden fells the glorious possibilities of life; the mother becomes conscious of the grandeur of maternity and the joys of a family. All this is not only woman's privilege, it is her duty, and it embodies the highest definition of "woman's rights."

After enumerating many of the blessings that follow perfect health the speaker continued:

All these desirable things can be accomplished, but in one way only. The Creator has given both women and man perfect physical forms, and each is constitutionally equal to all natural demands. It is a mistaken and pernicious notion that one is strong and the other weak. No curse was pronounced upon woman which did not apply with equal penalty against man. If women believe the fatalism that disease is a necessary condition of their existence it is chiefly because the disciples of the schools of medical practice have been utterly incapable of competing with the multitude of ills which, by personal carelessness or professional incompetency, they have permitted to fasten upon women.

A few weeks ago I received a call from a charming lady, whose earnest face clearly showed ahat she desired sdvice and assistance. Upon questioning her she stated that she believed she was suffering from a paralyzed liver and wished to know if I could in any way aid her recovery. Now, imperfect as her statement was in regard to the disease which troubled her, there is no doubt that

THOUSANDS OF WOMEN

are suffering to-day from similar troubles, who do not recognize tneir cause so nearly as this lady did. Paralysis means death of the member paralyzed and torpidity of the liver in the first stage of its dissoluion. This is one of the most serious questions that can arise in the experience of any woman; for a torpid and diseased liver cannot be cured at once, and it carries with it the elements of disease to all the other parts of the system. With an imperfect liver, billiousness, languor, a sense of bearing drwn, constipation, displacements, uterine troubles and the thousand ills Then follow impure blood and all the evils which an imperfect circulation cause. A derangement of the kidneys or liver causes disease in the organs which adjoin them just as certainly as a bad peach injures the other peaches in the basket. Not only this, but when these organs are in a healthy state they restore and keep in order any irregularity which may occur in the lower portion of the body. No woman was ever seriously sick for any length of time when such was the case. No serious inflamation can occur when the blood is pure, and no blood can be impure when the liver or kidneys are in perfect order.

I have seen very much of the troubles and ills to which woman have been subjected, and I have learned to sympathize while I have sought to relieve. In endeavoring to carry relief I have tried to be free from prejudice and have in view but one end, namely—to help those who are suffering; and I feel it is my privelege to-day to state that I believe there is a means whereby those women who are suffering can obtain complete relief and those who are in health be continued in its enjoyment. A few years ago a prominent and wealthy gentleman residing in Rochester N. Y., was given up to die of heart disease of the kidneys. By means of a simple and purely vegetable remedy he was restored to perfect health, and has since been the means of saving the lives of many others. So efficient did

HIS DISCOVERY

prove in the case of manly well-known men, that it began also to be used by ladies, and to-day, thousands of woman, in all parts of the land, owe their restored health and continued happiness to the wonderful power of Warner's Safe Kidney and Liver Cure. Mr. Warner has the writen testimony of hundreds of the best ladies in the land, enthusiastically praising the remedy, and thankfully expressing their gratitude for health. These letters are sacred, and cannot be given to the public, but they overwhelmingly verify all the facts above stated. Nature has given women a delicate, watchful, alert instinct and she has found this remedy to be what her sex for years has needed, to restore and maintain the perfection of nature. She resents the imputation that she is bound to suffer all the ills that attack her. She recognizes that suffering is but an incident of her existence, and that this incident is wholly within her control, if she can find the necessary helps which nature provides. The changeable character of our climate, the ofttimes exacting and enervating customs of society, of fashion and the necessity, all conspire to impair the vitality of women. If we add to these the exhausting duties of motherhood, and the mental anxiety for the success of her husband in all his laudable ambitions, which play upon her energies, it is supprising that thus burdened she should break down under the physical strain? By no means—on the contrary the wonder is that she has maintained her physical strength as she has.

I have not the time to elaborate this point. You yourselves very well know what the circumstances are which have rendered her life a burden. You also know that the

PRIMARY CAUSE

of physical degeneration is impure blood. The performance of the natural functions of womanhood and motherhood is not a disease, nor should it be so treated. Disease is the result of the transgressions of physical laws by our ancestors or by ourselves, and the natural cursings of the blood should not be considered. If, however, the blood be impure, it is certain to produce its poisonous effects in the parts with which it comes in contact, and thus cause inflamations and the innumerable ills that make the physical life of woman so hard to endure.

An enumeration of the troubles to which woman is subjected, and the adaptability of the remedy above named for their cure was then made by the speaker, who continued:

I am aware a prejudice exists against proprietary medicines, and that such prejudice is too often well founded, but we should discriminate, in our judgments and not condemn all because some are inefficient. The merits of Warner's Safe Kidney and Liver Cure have been proven beyond a doubt, because they deal directly with the causes of all female troubles; they effect and control the body of the tree rather than its branhes. Warner's Safe Kidney and Liver Cure has indeed been a blessing for the rich; a boon to the poor. It has lifted men from a bed of death and restored them to vigor and health But greater and better than all this, it has come to woman has raised her, restored her and kept her in constant hopefulness and health. It has kept back disease by fitting the system to resist its attacks; it has regulated the life, purified the source of life and brought innumerable blessings out of numberless woes.

The women of America both young and old, have greater opportunities to-day than those of any land in any age. Their rights are more fully recognized, their privileges greater and their possibilities unlimited. They are permitted to enjoy life to its fullest extent, and to do this their bodies must be unimpaired. I congratulate the women of this free land that the keenness of their perceptions has led them to discover their necessities and what will satisfy them. I congratulate them that they, who have reaped the greatest benefits from the scientific researches of independent investigation, are to-day the most enthusiastic proclaimers of the merits of this great remedy of which I have spoken. The spirit of intolerance, I may say in conclusion, so rampart in this age of free investigation when all things are judged by what they are and not by what they seem, must eventually give way to the better, wiser, nobler liberality in which alone can be found true security, true peace, true health and true happiness.

Garfield Passes By.

We mutually bow in sorrow;
Tears stand in every eye.
As the noiseless train moves swiftly on—
And Garfield passes by.

He goes among his people—
His by love's strong tie—
No voice but sings to tenderness
As Garfield passes by.

His sufferings draw us to him.
List to the people's cry—
"God save the stricken president!"—
As Garfield passes by.

Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for **Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever,** and all **malarial disorders.** In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms which terminate in the ague paroxysm, succeeded by high fever and profuse perspiration.

It is a startling fact, that quinine, arsenic, and other poisonous minerals form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonics," in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their own drug poison in the system, producing quinism, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. AYER'S AGUE CURE thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the attack.

For **Liver Complaints,** AYER'S AGUE CURE, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to directions.

Two runaways are rumored since our last report. The first was the three horse team of W. I. Yeckley, cause a bumble bees nest. The second, one of his neighbors, the head of a respectable family, cause, a yellow jackets nest. They both however are, at this present writing, at home and well content.

Mrs. P. Cook has moved to Ypsilanti, much to the regret of her friends in Rawsonville, where she has been an esteemed citizen for about seventeen years. There is a rumor that her son, C. G. Cook, of Howell, is negotiating with Mr. Martin to purchase an interest in the flouring mill. We should be very glad to see Gerrett back in Rawsonville.

PAINT CREEK.

About eighty assembled at Dr. Megan's on the evening of the 1st, it being the 2d anniversary of his marriage. Many presents to remind the Doctor and his wife of their friends, were given. It should be called a wooden wedding instead of a paper, for the Doctor that day presented his wife with a costly parlor set. Every one seemed to enjoy themselves and went away wishing the Doctor and his wife a long life, fraught with all the happiness that comes to mortals.

The anti-monopoly mass meeting and basket picnic in Bennett's grove on the 7th passed off pleasantly to all present. Greenbackers, Republicans and Democrats addressed the audience, showing the dangers of corporate power and monopolies. S. P. Ballard of Augusta, made an eloquent speech. A. McNichol of Ypsilanti gave an elaborate and convincing speech, promising the tallest monument to the first one of the old parties that died. W. H. Talcott followed in a stirring address, saying that the railroad companies meant to wipe the commerce off from our inland lakes, and, as in colonial times we paid tribute to a foreign tyrant, so now we pay tribute to the rail road kings of this country, who make their millions watering rail road stock, then receiving interest on the same. Dr. Megan made a clever speeh, defending the Republican party as the grand old party that has made the greenbacks worth one hundred cents on the dollar. Hon. L. R. Brown read a report from Hon. Wm. English, retiring president of first national bank of Indianapolis, showing the immense profits of the national banking system.

In the evening, G. Oderkirk, editor of the Milan Sun, and Messrs. George Bennett and Fullerton of Ypsilanti township, spoke. Oderkirk's apt illustrations brougt down the audience. Geo. Bennett denounced all secret societies as monopolies of the darkest sort, amongst them the Grange, to which Oderkirk took exception, saying that Bennett belonged to a secret society in the marriage relation.

On Thursday last there appeared in the township of Sharon, Washtenaw county, an army of worms of a variety hitherto unknown to this section. The worms vary from one-half inch to four inches in length, and are stripped with black and yellow. They were first seen in a sixteen acre field of parsley, which is literally covered with them, and they are now spreading to the adjacent fields to the distance of half a mile, always keeping to their parsley. Great numbers of people have come to the field to view the novel sight. Whence they came and what they are is a mystery to everyone.

From the Argus.

Charles A. Murray met a prompt and horrible death Wednesday forenoon in an attempt to board a work train in motion, just west of the Toledo rail road bridge that spans the Huron river. A work train pulled out from the Central depot about 8 A. M., moving westward. Mr. Murray, desiring to go to the residence of Mr. Taylor near the new iron bridge about a mile west of the depot, attempted to mount the slowly passing train, and fell beneath the cars, the entire train passing over his body. Both right limbs was severed, scull chrushed and body presented a horribly mutilated condition. A coroner's inquest returned a verdict that deceased met his death attempting to board a train in motion, five of the six exonerating the rail road corporation from blame, the sixth juror standing out on the gronnd that the train was run at a greater speed than was permissible by law.

The deceased married a daughter of the late James Treadwell, left a widow with four children comfortably provided for. His age was thirty-two and parents reside in Superior.

A SMASH-UP.—What might have been a very serious accident occurred on the D. H. & S. W., near the depot last evening. A brakeman neglected to close the lower switch and in consequence the 7:42 evening express which came in at a good rate of speed, instead of running in on the main track as it usually does, was switched on the side track on which were standing several flat cars. The engineer saw the mistake as soon as he reached the switch, and tried to stop his train, but it was impossible for him to do so, and with no small amount of force his engine struck one of the cars, The consequence was a wrecked flat car and a badly damaged engine. Had the cars been standing nearer the switch, there would probably have been a much more disastrous accident. The express train was delayed several hours in consequence. It is quite probable the brakeman will get the "g. b."

The Courier.

David Depue, of Pittsfield, has presented a very handsome easy chair to the county pioneer society. It is remarkable from the fact that is built of nineteen different varieties of wood, all of which were grown in Pittsfield. The long posts in the rear are made one of sycamore capped by a black walnut knob, the other of black cherry capped by a knob of barberry; the front posts are white ash and hard or sugar maple; the back slats are soft maple, Kentucky bean, tamarack and white oak; the arms are butternut and sassafras; the rounds are sumac, white beech, shagbark hickory, june berry, blue beech and bitter-nut hickory; while the seat is of willow. It is a fine present. This does not exhaust the varies of wood grown in the township, bnt shows what fine furniture these varieties are capable of making.

THE PIONEER SOCIETY.—The annual meeting of the Washtenaw county pioneer society was held at the court house Wednesday, commencing at 10 A. M. Ezra D. Lay of Ypsilanti township presided, and Rev. Mr. Gelston of this city offered prayer. The treasurer reported a balance of $11.55 on hand. The principal business being the election of officers, the same was proceeded with as follows:

President—Thomas Holmes, Chelsea.
Recording Secretary—L. Davis, Ann Arbor town.
Treasurer—James J. Parshall, Ann Arbor town.
Corresponding Secretary and Necrologist—Charles A. Chapin, Ann Arbor.
Vice Presidents—J D Williams, Ann Arbor town; Rice A. Beal, Ann Arbor; Aaron Childs, Augusta, George Rawson, Bridgewater; Lyman Baldwin, Manchester; Merrell Goodrice. Lima: J. W. Wing, Scio; Wm. Warner, Dexter; John Feldkamp, Freedom; John K. Yocum, Lyndon; C. A. Wines, Sylvan; Eli S. Brainard, Lodi; L. L. Kimmell, Superior; Wm. M. Gregory, Saline; Calvin Wheeler, Salem; George Sutton, Northfield; C Reeves, Webster; F S. Finley, Ypsilanti town; Wm. Wathng, Ypsilanti. J. H. Fellows, Sharon; David Depue, Pittsfield; Ramsey Salsbury, York.
Executive Committee—Thomas Holmes, Chelsea; Wm. Depue, Pittsfield; Mrs. Florence S. Finley, Ypsilanti; A, D. Crane, Dexter; J. J. Robison, Sharon.

The society decided not to purchase the collection of the late Miss Mary Clark. The committee on funds for furnishing the pioneers' room reported $52.20 collected. A historical poem, relating to this county, was read by Wm. Lambie of Ypsilanti, and a county history donated to the society by Horace Carpenter. It was resolved to hold the next meeting at Manchester, on the first Wednesday in December next. A dinner was furnished the members of the society ot Cropsey's, some 75 persons sitting down to the table. The meeting was very interesting and pleasant.

ACCOUNT OF THE TRIP OF THAT FAMOUS YPSILANTI SKIPPER, J. N. HORNER.

Messrs. J. N. Horner and Wm. A. Chamberlain left Ypsilanti for Dearborn at 6 P. M. July 18th, with their boat (described in the COMMERCIAL of July 16th) on a wagon. Remaining at Denton that night, they launched it on the Rouge the next day and camped at night on Detroit river. This is the way Mr. Horner spins the yarn:

"We sailed the 20th for Buffalo. We left Point Appelle in the rear, sailing 64 miles. Lake rough all day. I was a little sea sick. Camped on a sandy beach that night, slept well. Sailed 20 miles the 21st, lake calm. Camped by a high bluff and stayed there two nights on account of the wind. The 23d we sailed 40 miles but it became too rough and we ran ashore at Sturgeon Creek at 3 o'clock. The 24th we sailed five miles and ran ashore to wait for wind. About 1 o'clock we started and ran 15 miles in an hour and a quarter. It got very rough and we ran into the mouth of Brock's creek, where the Americans charged the Brittish on shore in the war of 1812. We stayed here from Sunday until Tuesday the 26th at 10 A. M., when we ran to Port Stanly, 40 miles in about four hours. The wind was very high and the lake rough and we stayed there two nights. They have the finest picnic grounds I ever saw, 124 feet above the lake. Capt. Eliston has a nice steamboat and he invited us to remain over and take a ride on the lake with him and go to the picnic. We had a nice time. The 28th we sailed to Port Bruce, a distance of ten miles, in one hour. Stopped here till 3 o'clock, then sailed to Port Burwell, ten miles. The 29 sailed 12 miles in an hour, too rough, so we ran into the mouth of the Clear creek. Passed Long Point the 30th, sailed 40 miles, camped at Normandale in a spring brook, and remained over Sunday. Monday, Aug. 1st, ran ten miles in the forenoon and 40 in the afternoon, anchored in a large bay, rocky shore. Aug. 2d, sailed 60 miles, lake rough all day, got to Buffalo at 4 o'clock. We loaded on a canal boat for Montazuma the 3d, got there the 8th, at 10 A. M. Went to Cayuga lake, seven miles and on the 9th sailed about 50 miles arriving at Ithica at 10 P. M. all right.

"The lake was very rough but we never shipped a drop of water. We had a nice trip and plenty of black bass caught with a trolling line. Could not fish every day.

"There is some beautiful scenery around Ithica: a waterfall 215 feet in hight, banks 400 feet perpendicular, and other large falls. Mr. Chamberlain has a nice farm two miles from Ithica and 500 feet above it, a very sightly place, as you can see the whole country around for fifteen or twenty miles.

"I reached home Sept. 8th, and found everything all right. Some were surprised to see me as they thought Jesse would never come back. Judging from their actions they were all pleased to see me."

Children are travelers newly arrived in a strange country; we should therefore make conscience not to mislead them.

She is going to try it.

A correspondent writes from way down East, in Lubec, Me., to Dr. david Kennedy, Rondout, N. Y.: "I called on you about six weeks ago, sick with Bilious Disease. I bought a bottle of Favorite Remedy,' and it cured me. What I want is some more of your medicine. My daughter is going to try it." Sensible man. He will not regret it, and when his daughter has tried it she will be satisfied too. "Favorite Remedy" is just the thing for the ills that aflict womankind

THE SURGEON'S KNIFE.

Wonderful Surgical Operation—Removal of Urinary Stones from the Bladder—Successful.

Mr. Simeon Tietsell, of Saugerties, N. Y., has been treated for seven years by various physicians for what they call Stricture of the Uretha, without benefit. He finally consulted Dr. David Kennedy, of Rondout N. Y., who found his trouble to be Urinary Calculi or Stones in the Bladder. The doctor at once removed the foreign bodies with the knife and then gave his great Blood Specific, "Favorite Remedy," to prevent the reformation. The entire treatment was eminently successful, and Mr Tietsell's recovery was rapid and perfect.

While "Favorite Remedy" is a specific in all Kidney and Bladder disease, it is equally valuable in cases of Billious Disorders, Constipation of the bowels, and all the Bowels, and all the class of ills apparently inseperable from the constitutions of women. Try it. Your druggist has it and it costs only $1.00 a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address. Dr. David Kennedy, Rondout, N. Y. The Dr. would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treates all diseases of a chronic character, and performes all the minor and capital operations of surgery.

The reason why so many authors are spoken of as dwelling in attics, is because so few of them are able to live on the their first stories.

PILES.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the paitent to suppose he has some affection of the kidneys or neighboring organs. At times symptoms of indigestion are present, as flatulency, uneasiness of the stomach, etc. A moisture like prespiration, producing a very disagreeable itching, particularly at night, after getting warm in bed, is a common attendant. Internal, External and Itching piles, yield at once on the application of Dr. Bosanko's Pile Remedy, acting directly upon the parts affected, absorbing the tumors, allaying the intense itching, and affecting a permanent cure where all other remedies have failed. Do not delay till the drain on the system produces permanent disability, but try it and be cured. Price, 50 cents. Ask your druggist for it and when you cannot obtain it of him, we wil send it prepaid, on receipt of the price. Address the Dr. Bosanko Medicine Co., Piqua, Ohio. Sold by F. F. Ingram. 863-1y

Piles! Piles!! Piles!!!

A sure care found at last. No one need suffer. A sure cure for the Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams (an Indian remedy) called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of 25 and 30 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, Instruments, and Electuaries do more harm than good. Williams' Ointment absorbs the tumors, always the intense itching (particularly at night after getting warm in bed), acts as a poultice, gives instant and painless relief, and is prepared only for Piles, itching of the private parts, and nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. Williams' Indian Pile Ointment: "I have used scores of pile cures, but it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. Williams' Indian Ointment." For sale by all druggists, or mailed on receipt of price $1.00.

THE COMMERCIAL.

[Entered at the Postoffice at Ypsilanti as second-class matter.]

Published every Saturday morning, at the corner of Huron and Pearl streets, opposite the Post Office, Ypsilanti, Mich., by

C. R. PATTISON.

Additional Local continued from First Page.

The Normal opens with a large attendance, cheeringly so.

Rev. Mr. Grannis spaeks at Worden Bros Lawn to-morrow afternoon.

Market reports and time tables left out, matter set solid, and yet not room enough for our mass of news.

A remarkable mirage appeared off the New Jersey coast just as the president arrived at Long Branch, showing sixty-five vessels af sea.

A look through the business and agricultural rooms of O. E. Thompson will please his patrons old and new, so nicely and convenently arranged. It makes Uncle Ben feel young again.

The Episcopal church congress will hold its annual session in Providence, R. I. commencing Oct. 25 and continue till the follow Friday evening. Bishop Clark of Rhode Island will preside and deliver the opening address.

We are indebted to Mr. Clark Cornwell for a pleasant ride to Lowell and Geddes mills, Tuesday. The former mill runs by water part of the time and by steam the balance. It is a mammoth concern. The pulp mill is a real curiosity.

COMING! COMING!—Miss Jessie Couthoui, the celebrated elocutionist, who has recently returned from Europe, will give readings at the Opera House, Saturday, Oct. 15th. This will be an opportunity to hear one of the finest artists America has ever produced.

The champion Hillsdale crew were received at home by a big celebration. Among the devices upon the banner was the following: "1879, Saratoga, 8:32¾: 1880, Philadelphia, 8:53; 1881, Washington, 8:06½; 1882, Europe, 7:45, or as much faster as you please."

Salem is drifting back to Ypsilanti with its printing. The citizens of Salem say that Ypsilanti is the cheapest and best trading point, Wortley catches them as well as Wallace & Clarke. A good chance for our dry goods merchants to expend a little powder in that direction.

Capt. Allen stated in the Presbyterian prayer meeting that he was glad they had been reminded of the danger of "dry rot" for there was real danger, unless they waked up to the demands of the hour. The COMMERCIAL is too modest to claim any credit for bestirring the Captain, but aroused, he will not stay his hand.

At the time of the great Chicago fire the little ones in our family, of their own accord, contributed each a loaf of bread. This time their feelings were so wrought upon that they made up the money for two loaves apiece. It demonstrates the value of newspaper information. How many children will do likewise?

After the service held last Sunday in the opera house it was voted unanimously to proceed to the organization of a Congregational church. Committees were appointed for calling a council and drafting a confession of faith. A Sunday school will be organized to-morrow, at the opera house, at 12 o'clock. All who expect to join the Sunday school are requested to be present Preaching at 10:30.

We spent three years in New England in college, and school authorities always excused and even exhorted their pupils to hear such speakers as Sumner, Wendell Philips, Gough, Miss Willard, Mrs. Livermore, Mrs. Stanton, etc. Such a lecture has inspiration in it and is often worth a month, if not a term of study. The Normal pupils should have turned out enmasse to have heard Miss Willard.

OPERA HOUSE.—Rev. Mr. Grannis had a good congregation Sunday. His sermon was a practical one: "As the pleasant smile should be reserved for the home circle, so in the church of God, kindness, politeness and courtesy to each other and to strangers should be a marked feature. Home work well done and then branching out in accornance with the great commission. The disciples were not contented to be cooped up in Judea, but extended their work to the surrounding people. Did not stand idly gazing up into heaven but went to work for Jesus. The gospel idea, first self conversion and then converting others." Incipient steps were taken towards the organization of a Congregational church.

RESOLUTION OF RESPECT.

With pleasure we give place to the following:

WHEREAS, The impaired health of our pastor, Rev. A. F. Bourns, demands his temporary withdrawal from the ministry, and necessitates the severing of his connection with this people as pastor, at the close of this conference year,

Resolved, That it is the sense of this meeting that Brother Bourns has been to this people an earnest, faithful and efficient pastor; and that while it is with much reluctance and deep regret that we submit to his retirement from this charge, it is at the same time with feelings of kindest christian regard, and with the most earnest desires for the future wellfare of himself and family, and with a strong hope that a kind Providence may restore him to health and vigor and spare him for many years of usefulness to the church of the living God.

THAT CHAIR.

Have you been in Dr. Parker's Electro Magnetic Chair? If not, you cannot appreciate the pleasurable sensations and effect of being surcharged. We tried it on. A slight shock at first in my feet and then a prickling sensation, and as the electricity at the will of the Dr., coursed first up one limb and then the other and then both, now one arm and then the other, now running up the spinal column and in an instant through the whole body—changed instantaneously from one part of the body to another. We concluded that it was a wonderful and invaluable invention. In case of rheumatism, paralysis, spinal and in fact cronic difficulties, any prostration of the physical powers, nevous derangements, inaction of any part of the physical system, this chair must be a big thing.

The electricity is so evenly and beautifully applied, mildly and gently to suit the most nervous temperament or full flow of the currents if desired.

If you want to try on that chair, go to corner of Ellis and Ballard streets.

There are a number of parties who have not been called upon and who will doubtless contribute liberally. Their names will be given next week.

E. P. ALLEN,
F. P. BOGARDUS,
S. H. DODGE,
C. KING.

PERSONALS.

Mr. P. A. Haynes, Saline, is going to Wisconsin.

Mrs. H. M. Curtis was in Detroit on Wednesday.

Col. Lee is visiting the Indians on the Lake Huron shore.

Mr. W. A. Fuller, of Dakota Ter. is visiting relatives in this city.

Henry Samson reports that he has been flopping around the state.

Mr. and Mrs. Thomas Campaign have returned from their eastern visit.

Mrs. Richmond, wife of the pastor, has returned from the east.

Mrs. M. T. Woodruff returned Monday evening from a visit to her parents in Ovid.

A. J. Leetch is building a nice residence on Huron street, south.

Mrs. Frank Booth of Detroit is the guest of Mrs. Don Batchelder, this week.

Mr. Frank and Miss Flora Towar of Detroit spent Sunday with Mrs. Wartz.

Mr. C. S. Woodard and family have returned from a visit up the lakes.

Mrs. E. Towar, of Hancock, with two children are the guests of Mrs. Wartz.

Mrs. Parrot and two children, of Dayton, Ohio, left for home last Monday.

Mrs. John Gilbert has been spending a few days in Jackson.

Mrs. Charles King is visiting her daughter, Mrs. John Wortley, in Jackson.

Miss Jennie Stevens has returned from her five weeks' visit in Tecumseh, having had a delightful time.

Mrs. J. H. Sampson and daughter have returned from a visit of several months at Athol, Mass., and vicinity.

Ed. Cornwell has returned from a month's recreation at Martha's Vinyard and is again shouldering telephone wire.

Mrs. J. P. Coonley has returned from Ridgeway and intends remaining in the city.

Miss Annie Irrion, who has been spending the summer in Coldwater, has returned home.

Mrs. Frank Baxter, of Tecumseh, returned home, with her sister Jennie, for a week's visit with her parents.

The engineer at the state capitol is Mr. Addison Childs, son of Josiah Childs. We nearly all know Addison.

Mr, Ira B. Laflin and wife left Thursday evening to take charge of the union school at Dearborn. Success to them.

Mr. J. C. Jillett and sister, Mrs. Stowell Dimick, returned Tuesday from a pleasant visit to friends in Calhoun county.

Mr. and Mrs. L. Fuller, of Rosario, Argentine Republic, South America, are visiting Mr. and Mrs. Geo. Fuller and other relatives.

Mr. and Mrs. James M. Weeks have returned from their visit west. They moved Tuesday into the residence of H. A. Weeks on Prospect street.

Miss Ida Sweet leaves for New York state next week where she will spend a few months with friends. She will be greatly missed by her many friends here young and old.

Mr. E. Forest Laible of Detroit spent last Sabbath with his parents, Mr. and Mrs. E. Laible. His wife and children have been visiting several weeks. They all returned to Detroit Monday.

Mr. Will Kimball will sing in St. Luke's church choir the coming year, with Miss Alice Henderson presiding at the organ. The singing in this church is not excelled by any choir in the city.

Rev. Mr. Dunning made us a pleasant call on his way to conference Monday. He says he has never had a pleasanter charge than the one at Stony Creek the last three years. He has been very successful.

Mr. Chas. H. Parker was married to Miss Lizzie Mead at the bride's home in Owosso, Sept, 7th. The happy couple made a pleasant visit to Mr. Parker's mother in Ohio, and returned to Ypsilanti Wednesday evening.

Dr. Watling and F. J. Swaine arrived from England last week, having occupied the same berth across the briny deep, They report a pleasant time. While we are overcome by the drouth, the English people and crops have been drowned out by rain.

Messrs Lute & Co., Detroit carriage manufacturers, visited our friend Sherwood at the toll gate a few days since. They also made Mr. D. M. Uhl at Brookside farm a call where they were shown his famous herd of Durham cattle which they pronounced the finest they had ever seen. They were much pleased with our beautiful city and expressed many thanks to Mr. Sherwood for his hospitality, and for their splendid ride behind hig handsome blacks.

What did that old fossil mean when he wrote, 'watchman, tell us of the night!' As if watchman knew anything that occurred after dark!

Mrs. Mary Martin, of Harrisburg, Pa., says: "I suffered severely from a complication of female diseases; that sense of bearing-down seemed as if it would kill me; my habits were very irregular: nothing seemed to benefit me until I tried Brown's Iron Bitters. They acted like a charm, and now I enjoy perfect health.

A Timely Warning or the Experience of a Minister.

If you suffer from general debility brought on by too close application to business and excessive brain-work; or from increasing prostration and sinking spells, that even a rest or removal of the cause will not relieve, make haste to do as did a reverend friend of ours. He secured from his druggists a bottle of Brown's Iron Bitters, having heard of its merits from a physician, who told him not to take any other Bitters or Tonic, for with the exception of Brown's Iron Bitters, they all contained alcohol, and had failed to give his patients lasting relief: nor should he take any other preparation of Iron, for with the exception of Brown's Iron Bitters, they all blackened the teeth, and often headache, which Brown's Iron Bitters never did, but in fact cured headache. The effect was most satisfactory: he immediately realized wonderful results. His old energy returned, his natural force came back, and he felt himself altogether a new man, full of health, strength and vigor, and he has continued to remain so ever since. Now he recommends Brown's Iron Bitters to all his friends which we unhesitatingly do to all our readers.—Globe.

'Jack, what relation are you to that old gentleman I saw you with this morning?' 'Oh, not much; he's married to my Grand parents' only daughter.'

The following letter from Julia F. Keneson, Holyoke, Mass., may interest some other sufferer:—"I am happy to imform you that two-thirds of a bottle of ARTHUR,S ELIXIR OF SULPHUR entirely cured me of a severe attack of Bronchitis. My lungs and chest had become very sore from incessant coughing, and most of the time I could not speak a loud word." Sold by Fred F. Ingram.

A citizen of Dokata took a Turkish bath in Omaha a few days ago, and died within an hour. The verdict of the Jury was: "He hadn't ought to have got so much mud off of him at one time."

Trust it Every Time.

A grateful patient, living under the shadows of the Highlands of the Hudson, writes to Dr. David Kennedy, of Rondant, N. Y.: "Your medicine recommends itself so thoroughly that you may hardly cure for a statement from me, yet from my own experience of its excellence, and from what I know of its operation in other cases, I should like voluntarily to say that 'Kennedy's deserves its high reputation. The public may trust it every time to do what you claim for it." Sold by all druggists. Dr. David Kennedy, Proprietor Rondout, N. Y.

A plumber who was about to die said: "My only regret at dying is because where I am going water pipes never freeze up.

Electro Magnetic CHAIR.

The reader has in the above illustration the latest invention. The treatment is adapted to all **Chronic Diseases,** *Confused Condition of the Head, Rheumatism. Neuralgia, Paralysis, Palpitation of the Heart, Derangement of the Kidneys,* and all *Female Weakness.*

The Chair is recommended in high terms by the Chicago *Medical Journal* and American *Medical Journal.*

The special application of this powerful remedial agent to any particular portions of the person has, thus far, been attended with great inconvenience. So far as known to me it has never been done without the removal of the patient's clothing, and the passing of the current by means of a sponge or like substance over the surface of the body. In using my apparatus, it is only necessary that the hands and feet should be bared.

The N. Y. *Medical Tribune* says: "The toilet for the occasion is very simple and scriptural. All the electricity required in the apparatus is so adjusted that the patient may receive the current through any specific portion of the body, the chest and arms, abdomen and pelvic organs. It is easy to vary the energy of the current, so that any desired effect may be produced. The whole is so simple that each patient may administer to himself, and as a piece of furniture, the chair is certainly handy to have in the house. It has been used with advantage where electric treatment is wanted, and we see every reason why every household should have one. This is an electric age in medicine as well as in science and art, and this chair comes in accordingly with great appropriateness."

I am using the above chair in the treatment of disease, and invite the afflicted to come and try its remedical effects.

N.B.—The medical profession are especially invited to call.

Dr. J. C. PARKER,

Cor. of Ellis and Ballard Streets,
YPSILANTI, MICH.
